

SODIUM ASCORBATE
CETRASOL®
562.43 mg Capsule
VITAMIN

FORMULATION:

Each capsule contains:
Sodium Ascorbate

Cetrasol® capsule is a white crystalline powder filled in brown (body) / brown (cap), hard gelatin capsule size #0.

PRODUCT DESCRIPTION

Sodium Ascorbate is an alternate form of Vitamin C, and may be used as a Vitamin supplement. Sodium ascorbate is a more bioavailable form of the vitamin your body can absorb, access and use. Sodium ascorbate with greater efficiency than regular vitamin C. Sodium Ascorbate consist of a combination of Sodium and Vitamin C, or ascorbic acid. In this mixture, sodium serves as a buffer, creating a less acidic supplement than those made entirely from ascorbic acid. This means it may easier to tolerate if your digestive system is sensitive to acid.

WHAT IS IN THE MEDICINE?

Sodium Ascorbate is an alternate form of Vitamin C, and may be used as a Vitamin supplement. Sodium ascorbate is a more bioavailable form of the vitamin your body can absorb, access and use. Sodium ascorbate with greater efficiency than regular vitamin C. Sodium Ascorbate consist of a combination of Sodium and Vitamin C, or ascorbic acid. In this mixture, sodium serves as a buffer, creating a less acidic supplement than those made entirely from ascorbic acid. This means it may easier to tolerate if your digestive system is sensitive to acid.

STRENGTH OF THE MEDICINE

See Formulation.

WHAT IS THIS MEDICINE USED FOR?

For the prevention and treatment of vitamin C deficiency. Hastens wound healing and increase body resistance from infectious diseases. For healthy gums, teeth, bones and other connective tissues.

HOW MUCH AND HOW OFTEN SHOULD YOU USE THIS MEDICINE

For daily maintenance take 1 - 2 capsules.
For cold symptoms take 3-4 capsules.
To be taken orally by mouth.

WHEN SHOULD YOU NOT TAKE THIS MEDICINE

Ascorbic Acid should be given with care to patient with hyperoxaluria. Tolerance maybe induced in patients taking high doses.
If you are allergic to any ingredient in the product.

UNDESIRABLE EFFECTS

Diarrhea, nausea, vomiting, abdominal cramps/pain, or heart burn are the most common undesirable effects. If any of these persist or worsen, tell your doctor promptly.

WHAT OTHER MEDICINE OR FOOD SHOULD BE AVOIDED WHILE TAKING THIS MEDICINE?

Ascorbic Acid is often given in addition to desferrioxamine to patient with iron overload to achieve better iron excretion. However, early on in treatment when there is excess tissue iron there is some evidence that ascorbic acid may worsen the iron toxicity particularly to the heart. The ascorbic acid should not be given for the first month after starting desferrioxamine treatment.

WHAT SHOULD YOU DO IF YOU MISS A DOSE?

If you miss a dose, just take the next dose if still needed for the condition being treated and the subsequent doses at the recommended time and schedule.
Do not double the dose.

HOW SHOULD YOU KEEP THIS MEDICINE?

Keep the product out of reach of children.
Store at temperatures not exceeding 30°C.

SIGNS AND SYMPTOMS OF OVERDOSAGE

If someone has overdosed and has serious symptoms such as passing out or trouble breathing inform your doctor promptly.

WHAT TO DO IF YOU HAVE TAKEN MORE THAN THE RECOMMENDED DOSAGE?

If you have taken more than the recommended dosage, consult a doctor.

CARE THAT SHOULD BE TAKEN WHEN TAKING THIS MEDICINE

Ascorbic acid should be given with care to patients with renal urinary bladder or gall bladder stones.

Do not take more than the recommended dose.
Do not use after the expiry date on the label.

WHEN SHOULD YOU CONSULT A DOCTOR?

Stop taking this medicine and consult your doctor immediately if you develop any of the following:

- Allergic Reaction (including: rash, itching, swelling esp. of the face/tongue/throat)
- Severe dizziness
- Trouble breathing
- Painful urination
- Pink/bloody urine
